

One community. *Infinite reach.*

Success in medicine takes more than brilliance — it requires a supportive environment. Here, faculty, postdocs, students and staff thrive on cross-disciplinary collaboration, elevating each other's work to raise the bar for patient care everywhere. Experience it firsthand in our labs, classrooms and world-class facilities — from nationally ranked hospitals to more than 200 clinics across the region.

With patient impact at the heart of our work, teams turn incredible discoveries into life-changing care, all strengthened by robust funding and advanced technology.

The result is a ripple effect of breakthroughs and progress that restore health, inspire hope and transform lives around the globe.

*“If you want to leave your
mark on the world,
there is no better place.”*

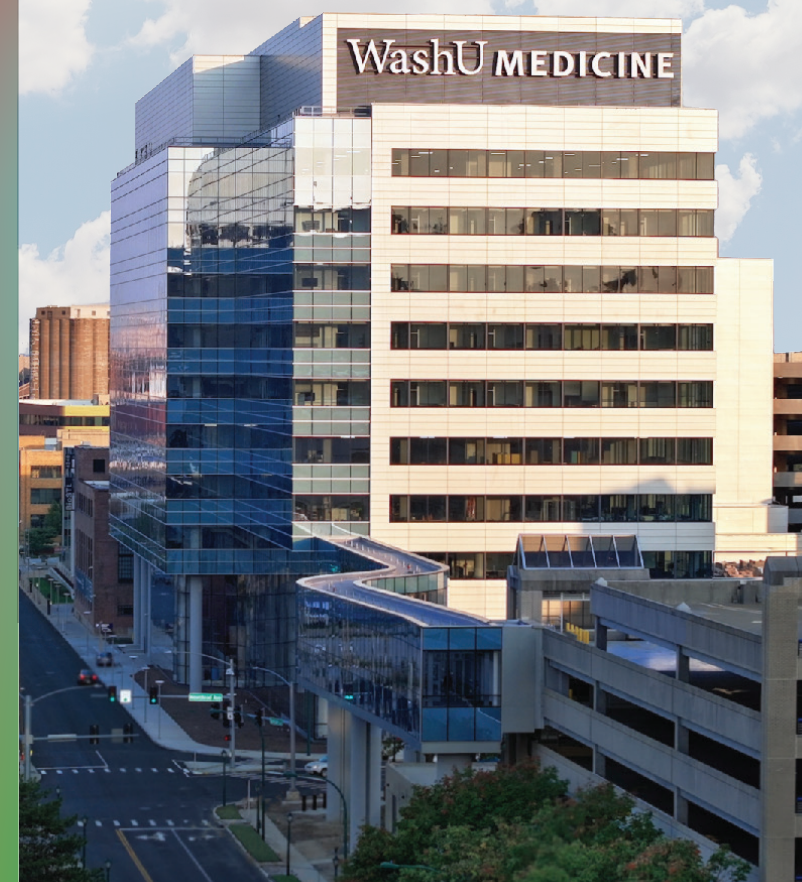

— **David H. Perlmutter, MD**
*Executive Vice Chancellor
for Medical Affairs and Dean
WashU Medicine*

If it matters in medicine, you'll find it here.

Connecting the power of care,
education and research into
something greater.

Research *advances medicine*

Breakthroughs emerge when boundaries disappear.

On our campus, the best minds in medicine are united in discovery. Insights from our labs spark investigations that move swiftly toward new treatments and cures. This ongoing cycle of scientific progress propels research beyond conventional thinking, delivering more answers, options, cures and hope.

Over \$1.6 billion in annual research expenditures

\$951 million faculty research grants & contracts

#2 in NIH research funding

Care *transforms lives*

Giving patients more hope by solving what others can't.

Because we see millions of patient cases each year — from the everyday to the most complex — our physicians and staff bring unparalleled expertise to every interaction, leading to better patient care. We also provided \$148 million in uncompensated care last year to better ensure access for all, regardless of ability to pay.

2,500+ clinical trials

101 specialties and subspecialties

2.9+ million patient visits annually

Education *empowers students*

This is where knowledge is passed down — and pushed forward.

Tomorrow's best medical leaders train at WashU Medicine today. With a customizable curriculum and nationally acclaimed degree programs, students gain knowledge and confidence while working alongside renowned mentors and training in top hospitals, labs and clinics. Those who train here are ready to thrive anywhere.

Top-ranked medical school for over 130 years

85% of students receive scholarship support

98.5% residency match rate vs. 93.5% nationally
